

Fall 2006

Dear Friends:

Little Annette is smiling again.

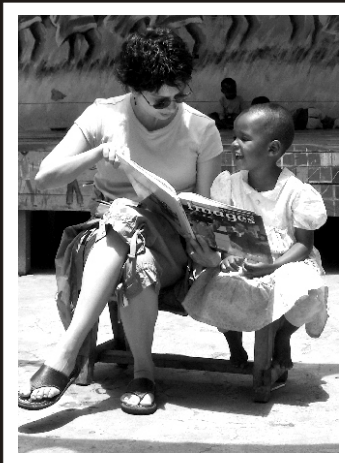

Her mother, Mary, had not see this smile in a long time because Annette was too weak to eat, sit up or to laugh, due to infections ravaging her tiny body. Her immune system was too weak to fight the infections, so they crept in: tuberculosis and pneumonia were too much for her. Yet, thanks to your donations, we were able to send her the adequate medicine to fight the sicknesses and now, she is a happy, smiling child once again. She is gaining weight and she is now learning to walk.

Annette

During this holiday season, I want to thank each and every one of you for your care for the children whom we serve. This has been a wonderful year, thanks to your generosity. To date this year, we have sent \$3,956,672 worth of medicine to children affected by HIV/AIDS, including Annette. We could not do this without you!

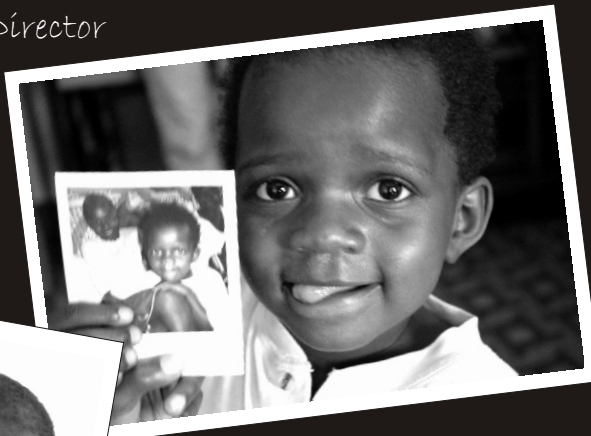

As we close this milestone year and look forward to 2007, I want to thank you again for your support of our mission. Together, we will continue to improve the lives of children and families and to give hope, one child at a time.

On behalf of the children,

Tanya Weaver
Executive Director
